

EVENING EDUCATION WEBINAR

Topic - Dealing With Noise in Stratas

What do you do when residents complain about noise in a strata corporation? Join us for a comprehensive walk through with an acoustic engineer and strata lawyer on how to resolve and mitigate noise complaints in stratas.

STEPHEN HAMILTON, HAMILTON AND COMPANY

Stephen supervises Hamilton and Company's Strata Property and Civil Litigation practices. He has practised law for more than 30 years. As a trial lawyer, Stephen helps clients resolve legal disputes in the British Columbia Supreme Court, Civil Resolution Tribunal, Court of Appeal, and the Supreme Court of Canada. Practicing primarily in strata property law, Stephen works to resolve disputes involving bylaw enforcement, governance disputes, negligent construction, and strata fee collections. He has represented strata corporations and owners in many of the precedent setting cases in BC. Stephen teaches strata law courses, lectures at the CLEBC, and served on various advisory committees contributing to legislative developments in the strata property field.

MARK GAUDET, BAP ACOUSTICS

Mark Gaudet is the principal at BAP Acoustics and is one of BC's most knowledgeable and experienced acoustic consultants. He oversees all aspects of BAP's acoustic design projects. During his 35-year career, Mark has been responsible for the acoustic design of several prestigious projects, including UK National Physical Laboratory, Okanagan Correctional Centre in Oliver, BC, and more. Mark holds a B.Sc. Acoustical Engineering (Honours), a Post-Graduate Diploma in Environmental Acoustics, and he is registered as a P.Eng. in BC, a C.Eng. in the UK, a member of the UK Institute of Acoustics (MIOA) and a member of the US Institute of Noise Control Engineering.
